Trent International Prosthetic Symposium

2012

Dear Delegate

A very early call for papers

It is with great pleasure I enclose a copy of the Preliminary Programme and Call for Papers for TIPS 2012 and invite you to participate at this premier event to be held from 21 to 23 May 2012.

Our last event in 2009 yielded a surprising and overwhelming early response, with a wide range of papers being offered. Following that meeting we were also gratified by the high level of very positive feedback. In general, the format was very much appreciated; with 17 formal scientific presentations, demonstrating advances in the field, as well as many shorter clinical observations, reporting on relevant practice and subjective experience. This all acted as a springboard for individual discussion during the social elements of the conference. We were particularly pleased also that this format allowed whole teams to participate, so greatly improving the international spirit and focus of the conference.

The Organising Committee hopes that it can successfully replicate this format for TIPS 2012 and would appreciate an early indication of your intention to attend and, indeed, topics on which you would propose to submit free paper abstracts or short clinical papers. Simply e-mail our administrator, Irene Cameron (info@ispo.org.uk) with a brief outline.

We look forward to welcoming new and past delegates to TIPS 2012 and to learning about your new ventures in the field of upper extremity prosthetics and rehabilitation – preferably something which has grown from your experience over the last two or three years.

Do encourage your peers and colleagues with an interest in rehabilitation of the upper limb to join us.

With kindest regards from all on the TIPS 2012 Organising Committee. We look forward to welcoming you to Loughborough!

Rosemarie Morris
Chair
TIPS 2012 Organising Committee
