

**PROGRAMME**  
**September-December 2006**

This is a meeting arranged for those with an interest in orthotics to enjoy a short presentation on a direct or related subject followed by questions and discussion. The format is informal and encourages sharing of information with and from those present. It is a multi - disciplinary group and is organised by the physiotherapist and Orthotist of the orthotic clinic at The National Hospital For Neurology and Neurosurgery. To date we have enjoyed excellent presentations, all of the meetings have led to lively discussion and greater understanding and thought by both attendees and presenters. To date the meetings have been attended by Physiotherapists, Occupational therapists, Orthotists and Medical staff, anyone with an interest is welcome.
