ISPO UK MS

Multidisciplinary Special Interest Group

Upper Limb Difference & Acquired Amputation

ISPO UK MS is broadening its range of professional activities by introducing Multidisciplinary Special Interest Groups. There has been particular interest in the treatment, rehabilitation, and provision for individuals with upper limb difference and acquired amputation. This is a specialist area and practitioners working across disciplines may treat relatively few patients at a given centre or have limited opportunity to exchange knowledge with fellow professionals.

Membership

As an [ISPO member](#), this group is free to join. You simply need to complete an [online form](#). Members of the group will be expected to actively engage with the group's activities. If you are [not an ISPO member](#), there will be a limited number of spaces available to non-members at each meeting. You can attend your first meeting for free, however, to attend any further meetings or to gain access to the networking platform you will need to [join ISPO](#).

Our next meetings ...

Our next meeting will be held online on **Wednesday 29th June 2022 from 2.00 pm to 4.00 pm via Zoom**. A fuller agenda will be shared shortly, but we do plan to include a session for Lightning Talks (research and case studies) which proved popular at the last meeting. If you'd like to share your current research, please complete and submit a [short online form](#) with a brief synopsis and we'll get back to you to confirm if there's a place for you in our programme.

And here's a **SAVE THE DATE** for the autumn meeting which will be held on **Thursday 22nd September – again from 2.00 pm to 4.00 pm via Zoom**. **Please jot this date into your diary too.**

Networking and ongoing collaboration

We have introduced a SLACK networking platform (included in your membership) for communication outside of the core meetings and working together to address challenges (e.g. developing new sets of upper-limb rehabilitation guidelines for people with limb difference/ amputation). You must, however, be a fully-paid up member of ISPO and have completed the [joining form](#) before receiving an invitation to join the SLACK group.

Interested in getting more involved in leading, organising and shaping future meetings?

We're keen to expand the leadership of the group beyond ISPO UK Exec Members and eager to hear from members who would be willing to step up to help shape and organise our meetings going forward. Please contact us through ISPO UK Secretariat (info@ispo.org.uk) or speak with a member of the current leadership team (Alix, Peter, Morven and John) if you are interested or would like to discuss further.

And finally ... Any Questions? [Contact us!](#)
